WORK EXPERIENCE

UX and Visual Designer | LeCor Technologies

Jul 2025 – Present

- Collaborated daily with UI Designers, UX Researchers, Front End and Back End Engineers, Data and Testing Teams, and Product Managers to create practical and elegant design solutions.
- Used Figma to create user flows, wireframes, high-fidelity designs, and prototypes, ensuring alignment with existing design patterns and a mobile-first approach.

Senior UX Designer | Leidos

Sep 2022 – March 2025

- Led the design and implementation of over five new features and components for SSA's NCPS disability web application, enhancing usability and efficiency.
- Collaborated daily with UI Designers, UX Researchers, Front End and Back End Engineers, Data and Testing Teams, and Product Managers to create practical and elegant design solutions.
- Used Figma to create user flows, wireframes, high-fidelity designs, and prototypes, ensuring alignment with existing design patterns and a mobile-first approach.
- Promoted to Lead Component Designer, overseeing the creation and maintenance of design components to ensure quality, usability, consistency, brand relevance, and compliance across all deliverables.

Design Educator | Chegg, Inc.

Jun 2019 – Mar 2024

- Mentored and prepared 500+ students for real-world design roles, contributing to an 11% increase in enrollment at Thinkful, a subsidiary of Chegg Inc.
- Provided in-depth critiques, mentorship, and mock interviews, helping over 100+ students secure design positions.
- Reviewed and graded student work, offering constructive design feedback to refine skills and enhance job readiness.

Service & Interaction Design Specialist | Accenture

Jun 2019 – May 2021

- Delivered 60+ UX/UI designs across desktop, tablet, and mobile platforms, ensuring high-quality user experiences while meeting sprint commitments and project deadlines.
- Maintained and expanded the GSA design system library with 100+ components, leading system reviews with the Product Owner to standardize best practices across federal clients.
- Mentored product designers and reviewed 100+ designs while using data-driven insights to shape product roadmaps, collaborate with cross-functional teams, and present solutions to senior leadership.

EDUCATION

Bachelor of Science in Graphic Design, Art Institute of Philadelphia, Philadelphia, PA
